DETAILED ACTION

In response to the amendment filled 1/15/2004, all the amendment have been entered and the action follows:

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 305-358 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claimed subject matter in independent claims 305, 318, 345 and 358 suggests that the "ratio of measurements of unique internal electric and/or magnetic and/or acoustic properties" observed. But, the specification did not disclose or enable all the different embodiments as claimed in the claims.
